THE CENTER OF WEALTH

Late News From the Leading Mining Camp in Lewis and Clarke County.

Preparations Completed for Glorious Celebration on the Fourth of July.

Building Improvements Progressing Effects of the Tie-Up on the Mines and the Merchants.

MARYSVILLE, June 29. - The visit of THE INDEPENDENT'S representative to, and his comprehensive "write-up" of this camp in last Sunday morning's leaus have resulted in the Marysville correspondence being reestablished. After a long vacation it reappears again, and will in a small way chroniele the events of this flourishing camp, so that the people of Montana may from time to time know of its prosperity and the development now being undertaken of the great mineral wealth in the district of which Marysville is the center.

Two topics, widely different in nature, lowever, are now appermost in the public mind here. The first is the bright outlook for a renewed production of gold by the famous Drum Lummon mine that bids'fair to exceed the returns made during this property's most palmy days. The other is the coming and elaborate celebration by the coming and elaborate celebration by the people of Maryaville of the one hundred and eighteenth anniversary of our topic, "Foundations of the Nation." nation's birthday on Wednesday next. As to the first of these little can be added to what already has been published of the exhaustive report made by General Monager R. T. Bayliss, of the Montana company to the stockholders in London on the 27th inst. From this report the most skeptical can gather facts that guarantee the continued operation of this company's mine and mills for a long period of years, and at a fine profit. Mr. Bayliss' report is a most able document, and should be preserved for future reference by all interested in mining operations. It has been printed complete, and the thanks of all are due to Mr. Bayliss and his company for not keeping its contents a mysterious secret. To know that the future of this great property is assured justifies the investment in real estate and the building now going on here. There never was any W. Jones has started a line of stages beyou just what you want, now going on here. There never was any question as to whether or not Marysville and if we talk about any certain
